February 16, 2004

Dear Sir:

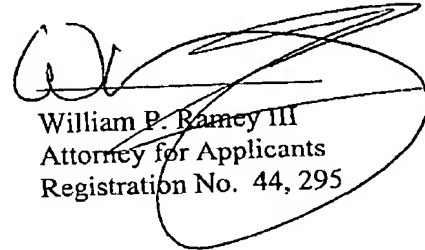

In response to the Patent Office's Notice to Comply with Requirements for Patent Applications Containing Nucleotide Sequences and/or Amino Acid Sequence Disclosures of February 6, 2004, Applicants contend that they have complied with the sequence procedures outlined in 37 C.F.R. §§ 1.821 – 1.825. Accordingly, Applicants respectfully request reconsideration.

Reference to the request for filing divisional application pursuant to 37 C.F.R. § 1.53 (b) and Preliminary Amendment illustrates under the Remarks section, section IV, Applicants requested the Patent Office to transfer the previously filed identical computer readable form from

the parent file to the current file. The parent file is application serial number 09/792,789, filed on February 22, 2001. All the requisite statements were made in the request. Accordingly, Applicants had complied with the sequence listing requirements in the Notice to Comply is erroneous.

Should the Office have any questions in processing this letter, they are invited to contact the undersigned attorney. Lastly, the application is believed in condition for allowance and such action is eagerly requested.

Respectfully submitted,
